

**CHEMICAL DOSING
SOLUTIONS & SYSTEMS**

ROYALDOS
YOUR DOSING EXPERT

Chemical Dosing Systems

INTEGRATION AND INSTALLATION

All systems are provided with documentation for integration of the dosing system into your process: GA (General Arrangement) drawings; 3D Model; Electrical Wiring Diagram, and Operation Manual.

All systems are tested and pre-commissioned prior to delivery to ensure quick start-up without faults.

Installation and commissioning can be done by your staff using the documentation provided. If you would like Royaldos to install and commission, we are happy to help.

HIGHEST QUALITY COMPONENTS

Royaldos use high quality, industrial grade components for lowest life cycle cost.

MAINTENANCE AND SPARE PARTS

All systems are provided with a comprehensive spare parts list and Royaldos maintains a large spare parts inventory.

Our experience is accumulated over a 15 year period. During this time, we have gained extensive experience in Design, Manufacture, Installation and Commissioning of Chemical Dosing Systems.

Royaldos design and build customised chemical storage and dosing systems for a wide range of chemicals and applications. These packages are tailored to suit our clients' requirements while adhering to European Standards.

Dosing Technology

Bespoke options & expertise

- Systems are designed and built to suit the confines of a particular site and individual needs.
- Long-standing relationships with an extensive range of component suppliers, such as chemical dosing pumps, and access to the latest technologies.
- Range of standard packaged systems also available, which can be dropped on site, effectively independent of the main plant.
- We pre-build as much equipment off site as possible, minimising the on site work.
- Health & safety and environmental protection at the forefront of all system, including bunding, dual containment, splash protection, leak detection, labelling, training, etc.
